#### **Use of Cookies**

This website may use technical cookies (small information files that the server sends to the computer of the person accessing the page) to carry out certain functions that are considered essential for the correct functioning and visualisation of the site. The cookies used are, in any case, of a temporary nature, with the sole purpose of making browsing more efficient, and disappear at the end of the user's session. Under no circumstances do these cookies themselves provide personal data and they will not be used to collect such data.

Through the use of cookies it is also possible for the server where the website is located to recognise the browser used by the user in order to make browsing easier, allowing, for example, access by users who have previously registered to the areas, services, promotions or competitions reserved exclusively for them without having to register on each visit. They can also be used to measure the audience, traffic parameters, control the progress and number of entries, etc., being in these cases technically dispensable cookies, but beneficial for the user. This website will not install dispensable cookies without the user's prior consent.

This website uses its own and third-party cookies for analytical purposes and to show you personalised advertising based on a profile drawn up on the basis of your browsing habits (e.g. pages visited). All users who visit the website are informed of the use of these cookies by means of a floating banner. If you accept their use, the banner will disappear, although you can revoke your consent at any time and obtain more information by consulting our Cookies Policy.

The user has the possibility of configuring their browser to be alerted of the reception of cookies and to prevent their installation on their computer. Please consult your browser instructions for further information.

#### **Link policy**

From the website, you may be redirected to content on third party websites. Given that the RESPONSIBLE cannot always control the contents introduced by third parties in their respective websites, it does not assume any type of responsibility with respect to these contents. In any case, it will proceed to the immediate removal of any content that could contravene national or international legislation, morality or public order, proceeding to the immediate withdrawal of the redirection to said website, informing the competent authorities of the content in question.

The RESPONSIBLE is not responsible for the information and content stored, including but not limited to, in forums, chats, blog generators, comments, social networks or any other medium that allows third parties to publish content independently on the website of the RESPONSIBLE. However, and in compliance with the provisions of articles 11 and 16 of the LSSICE, it makes itself available to all users, authorities and security forces, actively collaborating in the removal or, where appropriate, blocking of all content that may affect or contravene national or international legislation, the rights of third parties or morality and public order. In the event that the user considers that there is any content on the website that could be susceptible to this classification, please notify the website administrator immediately.

This website has been checked and tested to ensure that it functions correctly. In principle, it can be guaranteed to function correctly 365 days a year, 24 hours a day. However, the RESPONSIBLE PARTY does not rule out the possibility of certain programming errors, or the occurrence of force majeure, natural disasters, strikes or similar circumstances that make it impossible to access the website.

**IP addresses**

The website servers may automatically detect the IP address and domain name used by the user. An IP address is a number automatically assigned to a computer when it connects to the Internet. All this information is recorded in a duly registered server activity file that allows the subsequent processing of the data in order to obtain purely statistical measurements that make it possible to know the number of page impressions, the number of visits made to the web servers, the order of visits, the access point, etc.

**4. APPLICABLE LAW AND JURISDICTION**

For the resolution of all disputes or questions related to this website or the activities carried out therein, Spanish legislation shall apply, to which the parties expressly submit themselves, and the Courts and Tribunals of the USER's domicile or the place of fulfilment of the obligation shall be competent for the resolution of all disputes arising from or related to its use.
